To: Jeremy Farrar (b) (6)
Subject: Re: Prevalence of infection and stage of the epidemic in Wuhan

Here's our summary so far. Will be edited further.

It's fundamental science and completely neutral as written. Did not mention other anomalies as this will make us look like loons. As it stands it is excellent basic science I think, which is a service in itself.

Will finish as soon as we can.

Agree. Very thoughtful summary and analysis. We really need to get WHO moving on getting the convening started.
